Student Safe Driving Program

## School Partner Overview

The GTestCanada Student Safe Driving Program gives secondary-school students an easy pathway to Ontario-focused G1 preparation through a school-specific QR code or referral link.

**This kit is intended for use only after the appropriate school-board/school review and authorization.**

### Student offer

#### FREE G1 PRACTICE

Students can access free Ontario-focused preparation resources.

#### OPTIONAL 3-DAY PASS

CA\$3.75 • 72 hours • 300 practice questions

### How the school referral works

- School receives its unique QR code/link after authorization.
- School shares it through a board-approved communication channel.
- Student scans the code and enters a name for the local browser experience.
- Student studies using free resources and may optionally purchase the 3-Day Pass.
- Qualifying purchases are securely attributed to the participating school.

Student Safe Driving Program

## Student Privacy at a Glance

### Browser-only student name

The current school referral flow keeps the student name in browser local storage and does not send it through the referral session endpoint.

### Anonymous session ID

A random UUID is used to support secure referral attribution.

### No student purchaser list

The current school system does not provide schools with a student-level list of visitors or purchasers.

### Stripe payments

Stripe handles payment processing; GTestCanada does not store card details.

## Security

- School referral tokens are cryptographically signed and time-limited.
- The server verifies the school is active before issuing a referral token.
- Changing the school code in the browser does not determine purchase attribution.

Student Safe Driving Program

## School Distribution Guide

After authorization, the school can distribute its unique QR code through approved channels such as a school website, newsletter, guidance communication, student-success materials or a printed poster.

### SCHOOL-SPECIFIC QR CODE

Insert the unique GTestCanada QR code supplied for this school.

### Suggested poster copy

#### **Preparing for your Ontario G1?**

Practice G1 questions and road signs with GTestCanada.

#### **FREE G1 PRACTICE**

Optional G1 3-Day Pass: CA\$3.75 • 72 hours • 300 questions

Your purchase also supports your school through the GTestCanada Student Safe Driving Program.

Student Safe Driving Program

## School Implementation Checklist

- Confirm board/school authorization.
- Confirm approved student communication channel(s).
- Insert the school-specific QR code.
- Publish the approved student-facing message.
- Direct privacy questions to the current GTestCanada Privacy Policy and the board's privacy process as appropriate.
- Provide implementation feedback to GTestCanada.

## Brand & Independence

**GTestCanada is an independent G1 preparation resource. It is not the Government of Ontario, Ministry of Education, MTO, DriveTest, a government agency, or a government-approved driving school.**

Student Safe Driving Program

## About GTestCanada

GTestCanada provides online preparation resources for people studying for Ontario's G1 knowledge test. The Student Safe Driving Program is a proposed school partnership framework intended to make those resources easier for secondary-school students to discover and use.

The program is deliberately designed around institutional review: schools and boards choose whether, where and how the program is communicated to students.

**This partner kit does not itself constitute board approval, school authorization, endorsement or accreditation.**
